RICHMOND FELLOWSHIP QUEENSLAND

A future recovered for people facing mental health challenges

H2H PROGRAM

RFQ's H2H program is an integrated wrap around support service for people referred from the Mental Health Service.

Supports are provided across the continuum of care and are of a higher intensity for three months, and then a lower intensity for a further period of up to nine months.

The service can support people through discharge preparation to follow up recovery support at home.

People who are living in the community and require supports to remain healthy at home and prevent admission to the mental health unit may also be eligible for the service.

ELIGIBILITY

- Adults (aged 18 years and over)
- Referred by the Mental Health Service
 - Inpatient unit – for discharge support and follow up recovery support at home
 - Community mental health team – for support to remain healthy in the community
- People regularly accessing the acute care system
- Not receiving support through the NDIS

SUPPORT

During your support, we will:

WORK TOGETHER with you, your family and clinicians to plan your hospital discharge and support needs

SUPPORT you at home including with your living arrangements and with your follow up mental health appointments

COLLABORATE on recovery goal setting and your support plan into the future

CONNECT you with health and welfare services, peer groups and your local community supports
